

The Siphala Foundation

What we do and where we go.....

This is the hub of a compassionate operation to offer intellectual elevation to the needy poor in Sri Lanka. Join us and enjoy the results.....

“Siphala Foundation” was formed to give a helping hand to a selected few innocent children who are deprived of the opportunity due to financial difficulties beyond their control to continue with their education in Sri Lanka.

As at present Siphala Foundation has established a very reliable network in Sri Lanka to identify and assess the extremely deserving school children who have genuine financial difficulties in continuing with their education. The need has now grown and the facility has been extended to the tertiary level of education. As at present the Siphala Foundation is providing Rs. 1000 per month to 64 school children and four (04) University students from various parts of the Island. Unless somebody can give a helping hand, these children may not be able to continue with their education due to their poor family backgrounds. Since inception, for the last three years, **Siphala Foundation**” has helped a total of 114 students.

We kindly appeal you to participate in this noble project.

Background

Most of us have migrated to New Zealand with the aim of providing a sustainable education to our children in the prevailing peaceful environment full of opportunity. Everyone knows to what degree the individuals have achieved their goals and further elaboration of that aspect is not required.

The stepping stone to our success is predominantly the free education we have received back home. It is indeed not possible to forget the system and the people as a whole who have contributed to our success. They deserve an expression of silent gratitude from all of us and that is the cornerstone of the Siphala concept we have launched.

Strategy

A prolonged stay in an affluent society makes people forget what poverty is. Unless the need is reiterated through a brain storming session the cause will eventually rest in oblivion. We believe that this flyer will bring the required credibility to the subject.

We are all mindful of the realities back home. Either the situation there is communicated to us through the media or sometimes we have witnessed the situation by ourselves during the last visit to our motherland. Many of you may have seriously considered sponsoring an innocent child to continue with his/her education who has compounded financial difficulties. Transmission of foreign currency becomes costly with increased frequency. zero operations cost to pave the way to those who have the will. The will to help is no longer a dream, it is a reality.

The Team

Due to the awareness of the above need and the increased interest of the public to assist needy children in Sri Lanka, a group of like minded friends decided to form a small working committee three years ago which has eventually lead to the formation of the “Siphala Foundation Committee”. We took it forward to improve credibility and transparency by registering the organization under the Charities Commission in New Zealand. All Committee members of the “Siphala Foundation” are volunteers and their activities or functions add no cost to the establishment. The main feature in the transfer of funds by the “Siphala Foundation” is that the donors are assured of 100% transmission of their donations to the beneficiary of their choice in Sri Lanka.

Get in touch with us....

We are always happy to hear from everyone on ideas and suggestions on how we can help these children better. So please do get in touch with us to share your thoughts or just write to find out more about us.
